

# VOLTBOX

Power is everything.

## CUSTOMIZABLE CHARGER AND SPEAKER

Capable of charging multiple devices at once, Voltbox is an ideal solution for clutter-free, convenient, and customizable charging. More than your average mobile charger, patented, single sided, retractable cable design eliminates unsightly cabling laying on tables or floors while providing compact, centralized access to power.

### VOLTBOX V400S

Comes in a variety of colors

#### V400S Features

- Portable charger charges four devices - smartphones, iPads, mice, etc.
- Retractable cables are compatible with Android and iOS devices.
- Android, iOS, and Type C compatible cables provide for a customizable solution.
- Bluetooth® 3W speaker plays for over 8 hours at 50% volume if used only as a speaker.
- Two fast-charging USB ports
- Micro USB charging cord provided
- Microphone can be used as a speakerphone after pairing with cellphone.
- Rechargeable lithium batteries
- Capacity - 10,400 mAh - will fully charge 3-4 iPhones or 3 Android phones depending on apps running in background. Customer experience may vary.
- Two sets of smart technology circuitry allow up to 5V 2A per port output for fast-charging or 5V 1A consistent charging for up to 4 devices at once.
- Approved for airline carry-on bag. Follow current airline policy for lithium batteries.
- FCC, MSDS, and UN 38.3 approved.
